

iMessage Sticker and Emoji Keyboard App Requirements

Image Requirements

- All images must be in PNG format
- App Icon of size 1024x1024
- The Sticker icons sizes
 - Small: 300x200
 - Medium: 408x408
 - Large: 618x618

Account Access

I need access to the following accounts (username and password) to upload the app to the App Store under your account

- Apple developer
 - <https://developer.apple.com>
- iTunes account
 - <https://itunesconnect.apple.com>

Specific to Emoji Keyboard Apps

- Emoji Keyboards can have multiple tabs at the bottom to separate the Emojis into different categories such as a dog category, cat category, bear category, etc. If you want me to separate the Emojis into separate categories please tell me which Emojis belong to which category.
- If the order of the emojis is important, please indicate that as well
- I can either include a hard coded description of the app in the about section of the app, or I can include an embedded URL that describes the app. For more information, please take a look at our sample keyboard app
- The colors and fonts are customizable, if you want to change them, please let me know

Overview

After you provide me with all of the info listed above, I'll upload the app to your iTunesAccount you'll be able to set the following

1. Download price
 - a. If you want to add a price to the app, you have to complete the Paid Applications contract under Agreements, Tax, and Banking. This will require entering your bank account and social security number. It may take a few days for Apple to verify this information.
 - b. If you set the app for free, you can always change it later when updating the version of the app.
2. App description
3. Keywords (limited to 100 characters)
4. App preview video (optional)
5. Up to 5 Screenshots (iPhone - 1242x2208, iPad - 2048x2732)
6. Support URL (this is required)
7. 2 categories for the app to be displayed in

If you don't want to do this yourself, just send me all that info and I'll do it for you. If you don't have any screenshots prepared, I can take them for iPhone and iPad on your behalf.

Let me know if you have any questions!
